Leadership and Russian-Indian staff of
the International Memorial Roerich Trust
(Naggar, Kullu, Himachal Pradesh)

Dear ladies and gentlemen!

International Council of Roerich Organizations named after S.N. Roerich cordially congratulates all employees of the International Roerich Memorial Trust on a significant anniversary - the 30th anniversary of its foundation!

Having traveled a long and at times difficult path, the IRMT is celebrating its anniversary with excellent achievements. Everyone who is interested in the legacy of the great Roerich family, as well as tourists from different countries, discover the museum-estate in Kullu, where the Roerichs lived and created their unique artistic, philosophical and scientific works.

The preservation of this memorable place is extremely important both for India and for Russia - two countries that the Roerichs united with their creativity. The installation of monuments to Nicholas and Helena Roerichs, their youngest son Svyatoslav and his wife Devika Rani evokes a feeling of deep respect for the efforts made by the IRMT and the International Center of the Roerichs to preserve their memory.

We frequently visit the IRMT website, which publishes information about cultural, scientific and educational projects of the International Roerich Memorial Trust. Your colossal, continuous cultural activity brings India and Russia closer, draws the attention of young people to the heritage of the Roerichs and serves a bridge for strengthening Russian-Indian relations.

On this wonderful day, please accept our admiration and sincere gratitude for what has already been done, as well as wishes for the further successful development of the

International Roerich Memorial Trust, the expansion of cultural and scientific cooperation. We wish you good health, joy, and prosperity!

As Svyatoslav Roerich commanded, let us together “always and in everything strive to the Beauty!”

Sincerely,

from the staff of the International Council of Roerich organizations named after

S.N.Roerich

Chairman of the board

Elvira Chistyakova
